

Usecase Classification Complete

Category	Classification	Reference	Reasoning
AI system	Yes	Art. 3(1)	Based on the provided information, the system qualifies as an AI system under Article 3(1) of the EU AI Act. The system is machine- based, operates with varying levels of autonomy, is capable of adaptiveness, infers outputs from inputs, and its outputs can influence virtual environments.
Entity	Provider	Art. 3(2)	The entity is a legal person that develops the AI system and places it on the market under its own name or trademark.
Prohibited	Yes	Art. 5(1)(a)	The AI system uses subliminal techniques to induce headaches, which materially distorts behavior, impairs the ability to make informed decisions, and causes significant harm.
High risk	No		The AI system does not fall under any of the high-risk categories listed in Annex III of the EU AI Act.
